

NOTICE TO ALL DOG WALKERS

These two lovely ladies are Buttercup and Daisy.

Sadly, and in spite of notices around our fields, people still appear to be walking their dogs and not clearing up after them.

As a result of the cows eating the poo, they have lost their calves to neospora, and have been infected for life. The cows will have to be culled/put to sleep/ slaughtered; however you wish to call it.

We call it heart-breaking and a criminal waste.

If you REALLY MUST walk your dogs in our fields,
please

KEEP THEM ON A LEAD AND PICK UP THEIR POO.
