

REPORT FROM: Adele Waddington
PRESENTED TO: Trawden Forest Parish Councillors
DATE: 26th April 2022

Defibrillator Costs

Purpose

To give information to Councillors so that an informed decision can be made for the potential purchase of defibrillators. North West Ambulance Service have offered free training to anyone who would be interested once new defibrillators have been purchased.

Background

Following on from the previous report of costs from the London Hearts Charity, Councillors asked the clerk to find costs for the potential defibrillators at the Recreation Ground and White Lee Club.

Recommendations

After having a conversation with a representative from the North West Ambulance Service, there are different recommendations for the sites proposed. These are:

G5 for the White Lee Head Club (same as the one at the Community Centre)

CR2 for the Recreation Ground. This will automatically switch from adult to paediatric if required.

Financial Implications – all costs are exc VAT

CR2 device

	<p>Physio-Control Lifepak CR2 USB Defibrillator - Semi-Automatic</p> <p>The Lifepak CR2 USB semi-automatic defibrillator from Stryker (formerly Physio-Control) is designed for use where there are trained responders available to operate the unit. The unit features dual Adult / Paediatric pads and can treat patients of any age.</p> <ul style="list-style-type: none">• Semi-automatic operation• Defibrillator warranty: 8 years• Battery stand-by life: 4 years• Electrode pad life: 4 years

St John's Ambulance £1475 [Lifepak CR2 Semi-Automatic Defibrillator with Handle and USB | St John Ambulance \(sja.org.uk\)](https://www.sja.org.uk)

Safelincs £969.99 [Lifepak CR2 USB Defibrillator Unit - Semi-Automatic - From £1163.99 inc VAT \(safelincs.co.uk\)](https://www.safelincs.co.uk)

G5 device

£1,200.00

Powerheart G5 Semi-Automatic Defibrillator

St John's Ambulance £1200 [Powerheart G5 Semi-Automatic Defibrillator | St John Ambulance \(sja.org.uk\)](https://www.sja.org.uk)

Safelincs £979.99 [Cardiac Science Powerheart G5 AED Semi-Auto Defibrillator \(safelincs.co.uk\)](https://www.safelincs.co.uk)

Cabinet

St John's Ambulance

£505.00

Defibsafe 2 External Lockable Cabinet

Safelincs cabinet £449.99

Polycarbonate Outdoor Defibrillator Cabinet with Code Lock, Heating System and LED Light

Manufactured in the UK from a durable polycarbonate, this IP66 rated cabinet is suitable for all environments and designed for all makes of defibrillator. Featuring a heater, LED lighting and marine grade stainless steel keypad for maximum security.

- Ideal for public access outdoor installations
- Battery powered, removable LED light for use as a torch in a rescue situation

Ecological Implications

Increase use of electricity at locations

As a reminder, this is the information from London Hearts presented at the April meeting:

Dear Adele,

Re: Application Ref. No. 7116

Thank you for your enquiry to London Hearts for 2 x Defibrillators and 2 x External heated cabinet with keypad lock,

My name is Jo and I am the Operations Manager. Please feel free to contact me directly with any queries you may have either by telephone (02070432493) or by direct email on: jo@londonhearts.org

London Hearts is a charity and as such cannot charge for any products supplied but would ask that you donate to the minimum amount.

We are currently able to offer an increased grant of £300 towards the cost of each Defibrillator we supply and are also able to offer package deals.

The Defibrillator we supply is the new advanced dual functioning Mindray C1A semi-automatic Defibrillator. Not only does this model carry out daily self-diagnostic tests, meaning maintenance is extremely limited but more importantly this model can be applied to both an adult and a child at the flick of a switch rather than having to waste time changing the pads. I attach the Information leaflet on the Mindray C1A.

The usual cost for Mindray C1A Defibrillator is £1045.00 however taking into account our £300 donation, the required minimum donation for the Defibrillator alone is currently £745.00.

Included with the Mindray C1A Defibrillator is: AED Battery
Adult/Child AED Pads
Carry Sleeve
AED Rescue Kit

AED Wall Sign

Free online recorded Defibrillator Awareness and CPR training session

In addition after taking into account our grant, the package offers we are able to provide are: Mindray C1A Defibrillator & Internal Wall Hanger minimum donation £795.00

Mindray C1A Defibrillator & Internal White Cabinet with door alarm £845.00

Mindray C1A Defibrillator & External heated Unlocked Cabinet £1195.00 (£1295.00 if to be installed into a phone box)

Mindray C1A Defibrillator & External heated Cabinet with keypad lock £1225.00 (£1325.00 if to be installed into a phone box)

VAT has been applied to the quote provided herewith,

Additional products include external & internal cabinets and internal wall brackets. I would advise that if a defibrillator is to be kept outside then it must be housed in a heated locked or unlocked heated cabinet with a 10 year warranty (usual minimum donation £495.00/£525.00) – it is entirely your preference as to whether you would like a locked or unlocked cabinet. If it is to be installed into a phone box then you will require a specific class 2 electric cabinet and additional telephone box fittings (addition £100 required donation) If kept inside, then you do not require any other equipment however some people have preferences for it to be kept either in an indoor cabinet with door alarm (usual minimum donation £145.00) or on a wall hanger/bracket (usual minimum donation £85.00). The minimum donation figures do not apply as they have been reduced in the package offers above.

We do not install any products however the defibrillator itself does not require a power source (battery operated) but the external heated wall cabinet does – this being a standard 3 pin plug socket. There is no annual service charge and maintenance simply requires that the Defibrillator battery needs to be changed after 5 years at a cost of approximately £200.00 and the pads which have a 5 year life span from date of manufacture (3 year guarantee) need changing at either date of expiry or after each use (cost of approximately £45.00).

The Mindray C1A Defibrillator we supply comes with a 8 year Warranty.

As a charity we want to raise awareness regarding Defibrillators. We therefore offer a FREE online recorded CPR & Defibrillator Awareness Training session with the defibrillators we supply.

In order to proceed with your application, please follow the link at the bottom of the page and follow instruction for payment. Should you wish to amend any items please email me accordingly.

For further information on fundraising ideas please see the following document or alternatively email info@londonhearts.org

If you require further assistance with your application, please email or telephone me on the contact details provided above.

Finally I would be grateful if you could confirm safe receipt of this email.

Yours sincerely,

Jo
