

## Playground fence

Hello Adelle

My name is D\*\*\*\* and live at \* Carr View adjacent to the playground . We are continuing to experience trespass and damage to our property on a regular basis from some of the children playing football on the playground . This evening for instance the ball has been kicked several times into our garden , despite me telling them not to pull the fencing and damage the dry stone wall and to knock on the door and I will get the ball for them they give me cheek and laugh and shout rude comments. They trample all over my plants and the ball constantly smacks into my windows and I am getting tired of it . The council now allows ball games on the playground so the council should be responsible for securing the area to prevent unauthorised access to our property . The attached pictures are of my windows that happens frequently .
