

# Dear Mrs Waddington,

I'd like to bring this to your attention the garage side at cottontree lane is looking a mess garages not being maintained as of the agreement. Personally I think you need to inspect them in person Barry Hodgson is no use at all. Even the councils garage is a disgrace and we have to look out onto that mess !!

Also from the start of the long garage row ( bottom of hill ) how have you rented a garage to a person who has no family live at cottontree and lives down long meadows barnfield close who have a perfectly good drive way and garage this is unacceptable to people on the list and who live at cottontree and can't get a garage that area is not in the parish at all I know people on barn field close and they don't pay council tax to Trawden parish is pendle only. This as of the agreement needs to be addressed asap

Also garages are not being used at all garage 4 th & 5th from bottom of cottontree hill havnt been opened for over 18 mths yes they might pay the rent but that isn't on the agreement as well states must house a motor vehicle also the two nxt to the power station aren't used and the plot where there is no garage at all but agreement states yet again they are garage sites not car park spaces The council get onto people past and present it must have a garage on the site and that also needs to be enforced as of the agreement one rule for everyone !

I think a full inspection of each garage is needed without warning for obvious reasons

I walk my 3 dogs daily on the back street and notice

What happens in most garages when the doors are open it's disgraceful of the council to allow this to go on and turn a blind eye

We as some resident's waiting for garages will take this further if nothing is done in the nxt 2 weeks Sorry this letter had to be sent to the council but there is no enforcement
