Road traffic accident in Trawden - Saturday 21 March
To Adele Waddington

Hello Adele

Please can you direct my email to the relevant council member/s.

I learned this morning that there has been a serious car accident at the top of Dark Lane, damaging property at Frigham's cottages.

You will probably be aware of the incident, involving three youths driving under the influence of drugs one of whom left the vehicle with the drugs and tried to make an escape across the fields.

We live on Hollin Hall and my son had heard the car fly past at an alarming speed at around 6am. We then saw three police vehicles pass with blue lights and sirens on.

Thankfully nobody was hurt but only by chance. We constantly see and hear cars and vans passing which are clearly driving at dangerous speeds. Anyone could have been out at that time, setting off for work, walking their dog, plus there is the added risk of wildlife and livestock being hurt.

My question is - what is being done about this? I believe it isn't the first time something serious has happened but in any case, safeguarding and traffic calming measures must be put in place in the village ASAP.

I am happy to discuss this matter further but in the meantime please ensure my email is read and responded to.

I look forward to hearing from you.

Thank you.

Kind regards,
